GUESTS OF THE KING.

The Shah of Persia Visits His Majesty, the King of England.

SLOW RIDE ON RAILROAD TRAIN.

Before Leaving Car the Persian Monarch Arrays Himself in Full State Uniform and is Resplendent With Diamonds.

London, Aug. 19.—The Shah of Persia, Muzafer-Eddin, and his suite, reached London and took up their residence at Marlborough House as guests of King Edward. In accordance with the Persian monarch's express wish, the train from Dover only traveled 20 miles an hour. He therefore had plenty of time to array himself in full state uniform, and when he left the train at Victoria station he was resplendent in a blaze of diamonds. On his turban (cap) a huge diamond stood out like a headlight; his epaulettes were adorned with large emeralds, and his breast was covered with jewels of all kinds. The gowns worn by the members of the shah's suite were only a little less rich than those of his majesty. The Prince of Wales, Lord Lansdowne, the foreign minister, Lord Roberts, the commander in chief, and the members of the Persian legation and others met the royal traveler at the station. The Prince of Wales and the shah shook hands and the visitor was introduced to the prominent persons present. The Prince of Wales subsequently conducted the shah to a royal carriage, and they drove off, escorted by a detachment of life guards and followed by other carriages. The route to Marlborough House was lined with troops. The weather was miserable, so the sightseers were not numerous.

A New Witness.

Chicago, Aug. 19.—Developments in the Bartholm-Mitchell murder mystery have led the police to believe they are nearer the solution of the problem that has been puzzling them for over a week than ever before. Edward Counselman, the intimate friend of William J. Bartholm, who was held for possible knowledge of the crimes, was taken before Justice Quinn and held for ten days in bonds of \$5,000, charged with being accessory after the fact in the murders of Minnie Mitchell and Mrs. Anne Bartholm. Counselman admitted he had met Bartholm, and that Bartholm said he was in trouble over Minnie Mitchell. The most damaging testimony as to Counselman's possible guilty knowledge of the murders of the two women came from a new witness, whom the police found, W. M. Allen, a fellow workman of Counselman's. Allen said Counselman had told him repeatedly that he knew a great deal about the trouble Bartholm was in. When Allen suggested that Counselman tell the police what he knew the latter said he would do no such thing, that Bartholm was his friend, and that he was too shrewd for the police.

An Unpleasant Experience.

Buffalo, Aug. 19.—Patrick Botkin, Michael B. Downing and W. D. Ray were rescued after clinging to a gas buoy in Lake Erie all night. They were fishing and their boat was capsized. They were thrown into the water, but managed to catch the buoy. As soon as dawn broke, Botkin swam to the boat, which was nearby. It was dragged partially on to the buoy and emptied. Botkin got into it and started to drift to Buffalo without oars or sails. The others hung on to the buoy until rescued by a passing boat. Meanwhile Botkin reached shore safely.

Streetcars Empty.

Lafayette, Ind., Aug. 19.—As the result of a strike and boycott declared against the Lafayette Street Railway company by the Central Labor union, the car of the company are hauling few passengers, while wagons and carriages operated by the friends of the striking streetcar men are being liberally patronized. Only nine of the 45 motormen and conductors now in the employ of the company belong to the union, and these men are on strike.

Strikers Are Quiet.

Wilkesbarre, Pa., Aug. 19.—Sheriff Jacobs reports everything quiet among the striking miners of the Wyoming region. No attempt was made to start work at the Warneke washery of Duryea, and, although preparations are said to be going on for resumption at the Maltby colliery of the Lehigh Valley Coal company, work was not commenced.

Peoria, Ills., Aug. 19.—Big Four passenger train was wrecked at Rising station, a few miles west of Champaign. No one killed.

TRADE UNIONISTS

Discuss the Question of Joining the Militia.

New York, Aug. 19.—The subject of the relation of the militia to the coal miners has caused an animated discussion among the delegates of the Central Federated union of this city. The matter was brought up by a delegate, who said he had been informed that there is a regiment of militia in Pennsylvania composed entirely of members of the United Mine Workers.

"These militiamen are liable to be called on to take up arms against their brethren, who are on strike for living wages," he said that President Mitchell of the United Mine Workers be requested to see that members of the union in future do not join the national guard. Several delegates said that the central body should consider well before taking any such action. The miners, he said, have trouble enough on their hands now.

Another delegates remarked that it would be better if the national guard was made up of trades unionists. He preferred to encourage members of labor unions to join the militia.

"If the militia were made up of the members of labor union," he continued, "the soldiers would hardly care to shoot their fellow workers when on strike. I want to see battalions, regiments—in fact, an army of militia—composed of trades unionists. They would be better than the United States army."

"I am a member of the national guard," another delegate said, "and I am not ashamed of it. But if I was called upon to shoot down workmen on strike I would resist."

The decision was to allow the subject to rest until after the end of the strike.

Troops Not Called Out.

North Platte, Neb., Aug. 19.—Governor Savage announced that he did not think it necessary to call out the state militia to guard Union Pacific property at this point. The governor had a conference with General Manager Dickinson, General Attorney Baldwin and other railroad officials, and another with a committee of strikers and citizens, and discussed both sides of the matter. He said it had been demonstrated to him that there was no need to call out the troops, and that he would not do so until requested by the mayor and sheriff, in which event he would act promptly. One of the railroad officials was hung in effigy, but the strikers disclaim responsibility for the act.

Gompers Sends a Warning.

New York, Aug. 19.—The Central Federated union of this city has received a letter from Samuel Gompers, president of the American Federation of Labor, warning the Central Federated union against having anything to do with a proposed new federation of central bodies on political lines. President Gompers said in his letter that he believed the promoters of the new federation to be sincere, but he also believed that such an organization would cause dissension and rivalry in the ranks of organized labor.

The Porte Is Slow.

Constantinople, Aug. 19.—The non-execution of the Turkish government of agreements reached long ago on several questions affecting the interests of American citizens has led to somewhat strained relations between the United States legation and the porte. The United States minister, John G. A. Leishman, has informed the latter that he will not discuss other matters until the terms of the settlements already agreed upon have been carried out.

Pythians Depart.

San Francisco, Aug. 19.—The stay of the Knights of Pythias in this city is drawing to a close. Many of the visitors have already left for their homes, and others are preparing to depart before the final business of the conclave is completed. The final sessions of the supreme temple of the Rathbone Sisters and of the supreme lodge were held. The day was devoted to concert and entertainment at the pavilion.

Cholera Spreads.

St. Petersburg, Aug. 19.—Cholera continues to spread in Manchuria and isolated cases have been reported in Siberia outside of Blagovetchensk, where it has a firm hold. Up to the last reports there had been 274 cases and 179 deaths at Blagovetchensk, 445 cases and 285 deaths at Port Arthur and 33 cases and 20 deaths at Dainy.

Protest Against Piece Work.

Omaha, Aug. 19.—Two hundred carmen, including carpenters, coach builders and painters, employed in the Union Pacific shops in this city, unexpectedly went on strike. The strike is a protest against the piece work system and the leaders say that all the car men on the system will be asked to quit work.

ROGERS LAW UNDONE.

Fifty Year Franchise Act Declared to Be Unconstitutional.

DECISION OF THE SUPERIOR COURT.

Famous Measure, Enacted Several Years Ago, Giving Cincinnati Street Railroad Company Its Franchise Pronounced Void.

Cincinnati, Aug. 19.—The superior court, Judges Dempsey, Smith and Ferris concurring, declared unconstitutional the Rogers law, which granted the Cincinnati Street Railway company an extension of its franchises for 50 years, expiring in 1946. If the supreme court sustains the superior court, franchises granted elsewhere under the same law will be gone. The court held that the Rogers law arbitrarily classifies street railways and municipalities, and that it is not uniform. The law gave a 50-year extension of franchises only for such street railways as complied with its conditions on the day it went into operation. The street railways are operated by the Cincinnati Traction company, controlled by the Elkins-Weldner syndicate, which has back of it the old Cincinnati Street Railway company. The street railway attorneys state that they will file exceptions and new petitions at once. The street railway attorneys expect the decision reversed. In any event relief will be sought at the extra session of the legislature next week.

May Arrest Powers.

New York, Aug. 19.—United States Marshal Kenkel received the following telegram from Montreal, Canada, from George Alfred Lamb, the attorney in the case of Peter Powers against the directors of the Northern Pacific railroad: "Shall positively surrender Powers to you Tuesday morning as agreed. Body of Pinkertons here; look to you to see there is no interference on train by anybody." It is supposed that the Pinkerton men are armed with bench warrants for Powers' arrest, and it may be that they will at once arrest him as soon as the train crosses the border line. Powers is wanted for contempt of court.

Too Mild For Some.

Trenton, N. J., Aug. 19.—The New Jersey Federation of Labor began a two days' session with about 100 delegates present. Cornelius Ford of Hoboken presided. A resolution expressing sympathy for the striking miners and asking Governor Murphy and United States Senators Kean and Dryden to use their good offices toward bringing about a settlement of the strike was adopted, but was afterward reconsidered and referred to the resolutions committee because a number of the delegates would not vote to make the adoption of the resolution unanimous. They said it was entirely too mild.

To Enlist in Army.

London, Aug. 19.—Time-exploded South African soldiers have been the victims of a curious delusion which is causing the officials of the United States embassy considerable annoyance. Former British soldiers who have served against the Boers have been applying in numbers at the embassy for enlistment in the American army in the Philippines. They all tell the same story, saying a report was in circulation at Cape Town and Durban that the United States was enlisting ex-British soldiers for service in these islands.

All But Three Discharged.

Wilkesbarre, Pa., Aug. 19.—The 24 deputies who were arrested by the authorities of Duryea last week for inciting a riot were given a hearing before Judge Halsey, and all but three discharged. The three held were placed under \$200 bail each. Judge Halsey said the sheriff would have to protect the property of Mr. Warnke, the owner of the Warnke washery. The law demanded this, continued the judge, and the sheriff must see that the law is carried out. It is said the washery will resume operations at once.

Death of Dr. Benson.

Gambler, O., Aug. 19.—Rev. Dr. Edward C. Benson, senior professor in Kenyon college, died at midnight, aged 79 years. The alumni endowed the professorship of Latin in his name, and will attend the funeral here Wednesday afternoon.

SICKNESS OF SCHWAB.

Peculiar Malady Has Firm Hold on President of Steel Trust.

NO ONE PERMITTED TO TALK TO HIM.

A Report Says That He Will Be Taken to Some Quiet Spot, Far Removed From All Business Cares.

Loretto, Pa., Aug. 19.—President C. M. Schwab of the United States Steel corporation has accepted the advice of his physicians and decided to retire indefinitely from an active business life. He will leave America to seek some quiet nook in a foreign clime, where not an echo of the strenuous life he has led can reach him. This information is authentic.

Dr. Golden never leaves the Schwab home and the exact nature of his patient's illness can not be learned through him. Mr. Schwab is not confined to his bed, but spends much of his time on the wide veranda, which affords fresh air and a sweeping view of the mountain slope. He is always with his wife or his parents.

The strange part of Mr. Schwab's illness is that he is always within view of those who call at his house, yet he will not allow any person to approach him. Heretofore the visitors to the Schwab home were greeted with a hearty welcome and a vigorous handshake. Now the visitor is met at the entrance and told that Mr. Schwab can not be seen. Intimates of the family receive the same message, and none has been able to converse with President Schwab since he came back to his home.

The people of this town, who still call him "Charlie," because of their early and intimate acquaintance with him, are discussing his prospective departure. They know he is a sick man and are relieved that he will spend possibly a year in an effort to regain his health.

The presence of sisters belonging to the order of Mercy in his home day and night since Thursday was another indication of illness. The nuns were not visitors, but it is generally believed that they are nursing the man who has so many times befriended them and their institutions.

The knowledge of the people of Loretto is that Mr. Schwab is going away somewhere. His destination will be kept a secret, and he will do nothing but seek health until his nerve have been restored to their normal condition and his mind fully relieved of the great business cares.

Mrs. Schwab said that her husband would not see any person and had not been receiving visitors for several days. Mr. Schwab sat on a couch within hearing of voices. A paper was before his eyes. He exhibited no interest and made no attempt to move.

Business associates. It is said, have met with a similar reception during the past two days. Mr. Schwab has been directed by his doctors to rid his mind on all business cares and he is obeying the orders religiously.

Schwab Will Retire.

New York, Aug. 19.—The retirement of Charles M. Schwab from the presidency of the United States Steel corporation is now commonly accepted as determined upon, notwithstanding recent official denials and political reluctance in official quarters to confirm the report. President Schwab's impaired health is the reason for this action.

Notable Passengers.

London, Aug. 19.—The steamer Majestic, which is to sail from Liverpool Wednesday, Aug. 20, for New York, will have among her passengers Mr. and Mrs. C. T. Yerkes, General James H. Wilson, who was to have represented the army of the United States at the postponed coronation of King Edward; Dr. Joseph C. Hartzell of Cincinnati, missionary bishop of the Methodist Episcopal church in Africa; W. R. Hearst, Sir Edward Barton, prime minister of the commonwealth of Australia, and Sir John Forrest, minister of state for defense of the Australian commonwealth.

War Vessels Reviewed.

London, Aug. 19.—The naval maneuvers in the Solent were marred by the weather. Torrents of rain and half a gale of wind drove the spectators from the sea front, and it was noon, instead of 10 o'clock, when the royal yacht Victoria and Albert left Cowes and took King Edward through the lines of the fleet. Subsequently an array of battleships and cruisers to the number of nearly 80 formed in two columns and passed on either side of the Victoria and Albert. All the war vessels manned ship as they passed the royal yacht.

SECRETARY SHAW says that it will not do to talk about revising the tariff now, that although it is a fact that there are unjust schedules in the tariff they must be let alone, for if an attempt was made to pull one of them out the beneficiaries of those unjust schedules would pull the whole structure down on the party. How is that for an acknowledgment of servile obedience to the trusts? And then it comes from an administration spokesman.

In his speech on Cuban reciprocity delivered before the Senate last winter, Senator Hanna made this prediction, "failure to pass this bill will most certainly be rebuked at the polls in November." The Ohio Senator knew that it would deserve a rebuke, and the whole world agrees with him on that proposition. Who was responsible for the failure to pass the bill? Let the voters of the country fix the guilt and give the reprimand. If they fail to do so they will prove recreant to their duty.

THE BLUE GRASS REGION.

Kentuckians who travel are often asked—"Where is the Blue Grass region?" "What are its limits?" These queries have never been more satisfactorily answered than by the late Dr. Robert Peter, chemist of the Shaler Geological Survey.

"In Kentucky," he says, "the blue limestone forms the richest soil. That beautiful section—the garden of the State—embracing Fayette, Bourbon, Woodford, Scott and Jessamine and the counties between them and the Ohio river is underlaid by this rock. The soil of this region has a subsoil more rich in mineral fertilizers than it is itself. A favorable climate and suitable meteorological conditions combine to complete its productiveness. The blue limestone formation is the basis of our far-famed blue grass land."

According Dr. David Dale Owen, State Geologist, the Blue Grass Region "is a triangular area, having its base on the Ohio river." The boundary between Mason County and Lewis marks its eastern limit.

ON THE ANXIOUS SEAT.

If plain English means what it says, we are forced to conclude that the Republicans are showing signs of going up to the anxious seat on the question of protection. The Baltimore American, a Republican organ, utters the following orthodox Democratic doctrine apropos the Iowa tariff revision declaration:

The revisionist sentiment won in the Iowa Republican convention. It declares unequivocally for such revision of the existing tariff laws as will withdraw from all monopolies the support now furnished them by the Dingley schedules. For the most vital issue now before Republicans is that of tariff revision. The men who, though acting as entirely blind, oppose every suggestion of a cut in the Dingley schedules, may proclaim greater friendship for the party than this newer element, but the claim is one they cannot substantiate. The Iowa R-publicans may have the wishes of the Republicans complied with, instead of undertaking to deny them through a mistaken idea that excessive protection is a thing to be enforced, no matter what the consequences, just because it was once the cardinal principle of the Republican faith. Protection is good just as long as it serves the ends for which it was designated, and no longer. It must to-day be confessed that in many instances protection has been made wholly superfluous, so far as the interests of industry are concerned, and oppressive so far as the people are concerned.

COLORED TEACHERS.

Their Annual Institute Now in Session.
Profs. Reed and Monroe the
Instructors.

Yesterday the institute season for Mason County began, the first being that for colored teachers. Superintendent Wells and Professors C. C. Monroe and T. A. Reid are on hand guiding and directing the educational bark over the sea of difficulties which is met day by day.

Strong papers were read by Mrs. M. E. Gray and Miss Jennie Moore; clear and incisive talks by Profs. Reid and Monroe, the instructors.

Among the chief topics discussed was "spelling." Every phase of it was presented, and its teaching and acquiring were made so very plain that neither teacher nor taught should in the future have any difficulty in obtaining a full knowledge of this most useful branch of education.

A musical and literary program will be rendered to-night at Bethel Church.

One of the best, if not the best repertoire shows that ever visited Maysville is The National Stock Company, which began a week's engagement at the Washington Opera House last night in "A Man of Mystery," judged by the plaudits of the big audience present. Each and every member of the company was more than clever in their respective parts, while the specialties were many and good. To-night the melodrama "Caught in the Web" will be played and big houses will not doubt greet this excellent company the balance of the week.

Dr. S. M. Worthington, formerly of Fern Leaf, has been elected Vice President of the Woodford Medical Society.

There's a story of a farmer and his son driving a load to market. Of the team they were driving one was a steady reliable old gray mare, the other a fractious balky black horse. On the way the wagon was stalled and the black horse balked and refused to pull. What'll we do, father?" said the younger man. "Well," said the father, "I guess we'll have to lay the gad on the old gray." That homely compliment to women: "The gray mare's the better horse" suggests how often when there's an extra strain to be borne it is laid on the woman's back. How often she breaks down at last under the added weight of some "last straw." Women who are dragging along wearily through life can gain real strength by the use of Dr. Pierce's Golden Medical Discovery. It puts back in concentrated form the strength making material which working women use up more rapidly than it can be restored by Nature. In ordinary processes of nourishment and rest. Dr. Pierce's Pleasant Pellets are universal favorites with women because they are easy to take and thoroughly effective in curing the consequences of constipation.

THE BEE HIVE

Very Easy Indeed!

Said a lady the other day: "It must be very hard for you to change your advertisements every day."

No, no, Madam, it is very easy, indeed.

If she only knew how we are selling goods she would not have made this remark. Our bargains are so great and numerous these days that to do them justice we should change our advertisements three times a day.

The Elks own the town this week and you can rest assured they will do their part to make this a "gala week." We will do our part too in a Dry Goods way.

Look out for our advertisements and don't miss a one, as they will contain some startling news.

BADLY INJURED.

Mr. Jack McHugh, formerly of this City, May Be a Cripple For Life as Result of a Runaway.

Mr. Jack McHugh, a son of Mr. Patrick McHugh, and who formerly lived in the West End, met with a very serious accident at Hillsboro, O., a few days ago. He has been working at Hillsboro for Mr. Everett Brightman for several months.

On the day in question, Mr. McHugh was hurrying to call a doctor to see Mr. Brightman's child that was so seriously ill, when his team of horses ran off. Becoming frightened at the danger that threatened him, he jumped from the wagon, the fall crushing his left hip joint, and he also received a bad wound on the head. The injury to his hip will probably leave him a cripple the rest of his days.

Had he remained in the wagon he would have escaped without injury, as the team ran to the stable and stopped, without damaging the wagon.

Harry Piatt, the Short street lad who disappeared some days ago, was found Saturday by Constable William Sons at the home of Messrs. Vaughn and Watters on Cabin Creek. The men say Piatt got in their wagon and refused to leave them. Harry was put to work worming tobacco, and says they treated him all right.

Mr. Charles Biggers' string of fancy horses were brought in Monday and are now at the fair grounds ready to contest for many of the blue ribbons this week. Other horses, from Richmond and Ripley, also arrived Monday.

Mr. Roy Brown and Miss Della B. Marshall, of the East End, were married Monday at the home of the bride, Rev. Ira Price, of Manchester, officiating.

The many friends of Mr. and Mrs. Jake Cablish will be glad to hear that their little son, Ellsworth, who has been so seriously ill the past few weeks, is able to be out again.

If you want to purchase the purest and best goods on earth go to G. W. Rogers & Co., 127 Market street, where you will find old Bourbon and rye whiskey, apple and peach brandy, California brandy, malt gin, California port, sherry and Maderia, K. REV. JOHN HICKEY.

Death Claims This Venerable Man of God.

Had Served as Pastor at Mayslick, Flemingsburg and Carlisle Long and Most Faithfully.

The venerable Rev. Father John Hickey died last night at 9 o'clock at his home at Mill Creek, of the infirmities incident to old age. He had been in failing health a year or more, and for several months his condition had been so serious that the announcement of his death most any hour would not have come as a surprise.

Father Hickey was born in County Tipperary, Ireland, eighty-three years ago. When quite young he came to America and resided for a time in Cincinnati where he clerked in a drygoods establishment. Later he took up his studies for the priesthood and graduated, after the required course of study, at Emmettsburg, Md. Following this he was assigned to mission work in Mason County, being placed later in pastoral charge of the parish at Mayslick. For about forty years he served faithfully and most zealously in the priesthood, most of the time as pastor at Mayslick, Flemingsburg and Carlisle. Last spring failing health and the infirmities of age compelled him to retire from active work, and his remaining days were spent in the quiet retreat of his home at Mill Creek.

Father Hickey was the oldest priest in the Covington diocese, and his life had been one of heroic devotion to Christ and His church.

He is survived by a sister who has had charge of his home these many years at Mill Creek. He also leaves several nieces, nephews and other relatives, some of whom reside at Chicago.

The remains will lie in state in the chapel at his home at Mill Creek this evening and to-night. To-morrow morning they will be brought to St. Patrick's Church, where they will lie in state during the day. The funeral services will be held at St. Patrick's Church Thursday morning at 9 o'clock, further announcement of which will be made to-morrow. The interment will be at Washington.

Captain Phister's little craft, the Newt. Cooper, arrived last night with the Kentucky river excursion party. They had a most enjoyable trip.

'Squire J. E. Bradford and Mr. Cooper Fulton, of Aberdeen, are the ones who recovered the automobile lost off the Stanley. The machine was taken to the Ohio shore Sunday evening where it was guarded by 'Squire Bradford that night. The Captain of the Stanley took the auto aboard Monday morning, having refused to pay Mr. Bradford and Mr. Fulton more than \$10 for their trouble. They demanded \$50, and there will likely be some litigation over it.
